

# 3D Signage

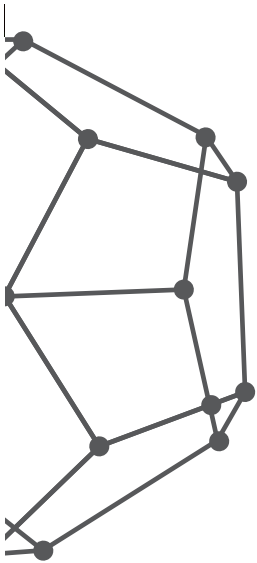

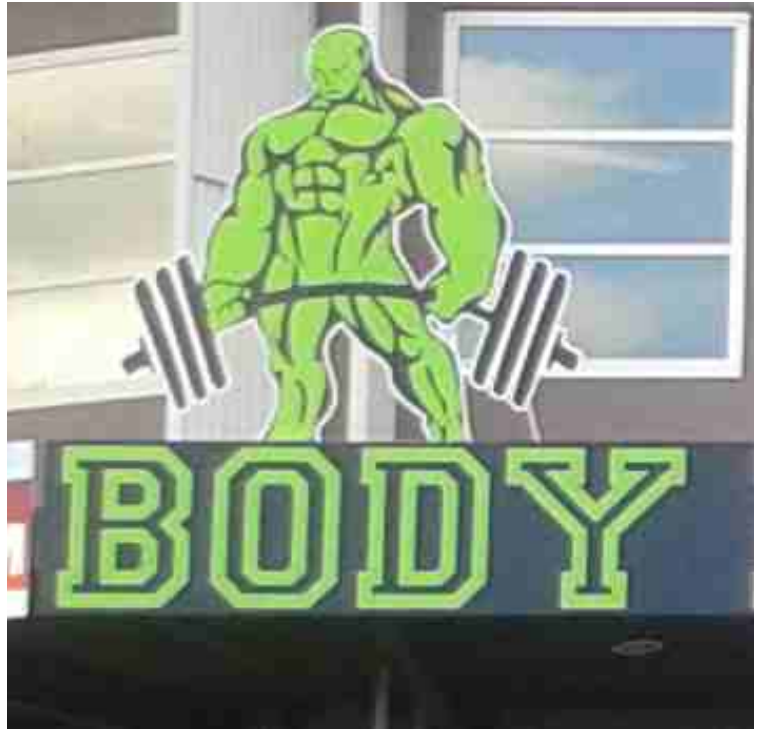

GET IN SHAPE. STAND OUT. ILLUMINATE

## ILLUMINATE THE NIGHT with a 3D light

LED illumination is, by far, the best way to grab attention at night.

We can cut out images and letters to any shape and size on PVC board, Acrylic or Aluminium panel just to name a few. They can then be applied with Vinyl or automotive 2PAK paint.

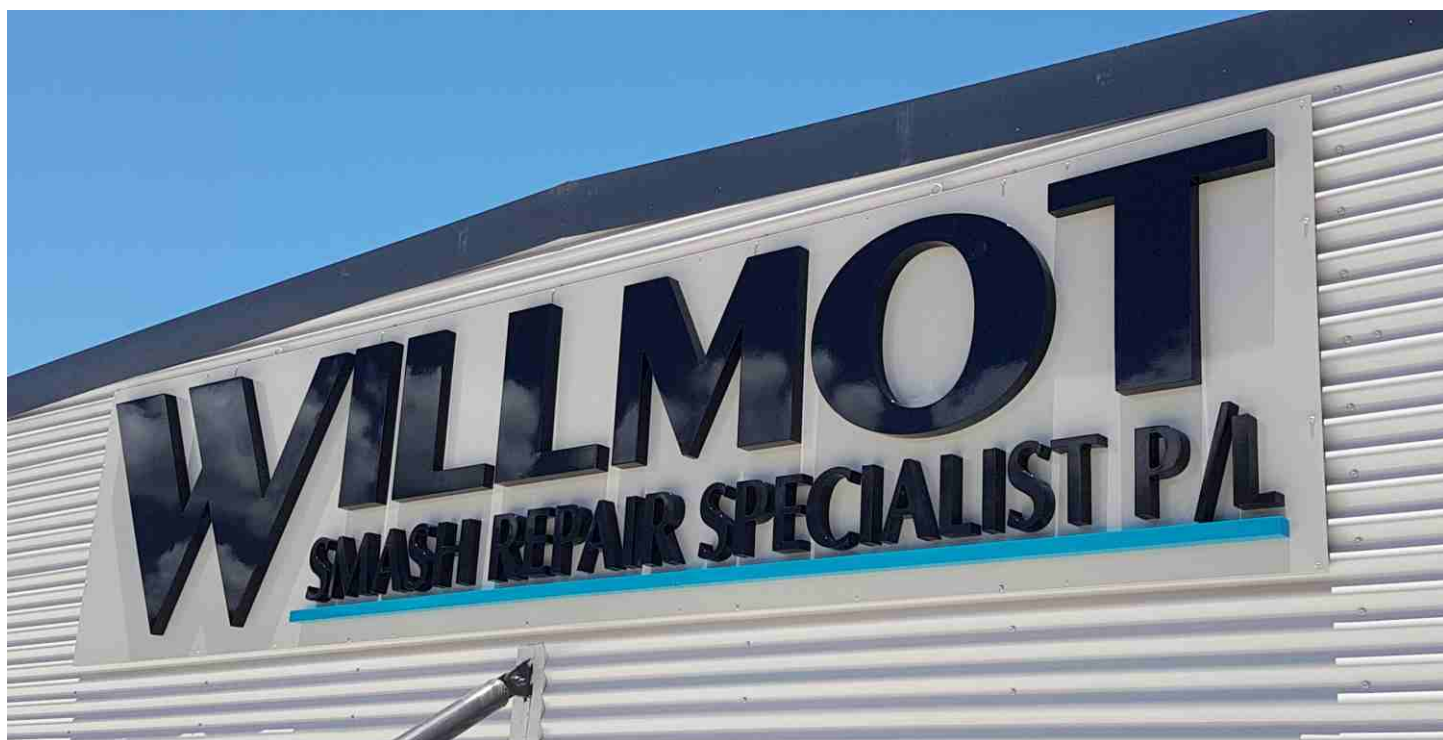

GET IN  
**SHAPE**

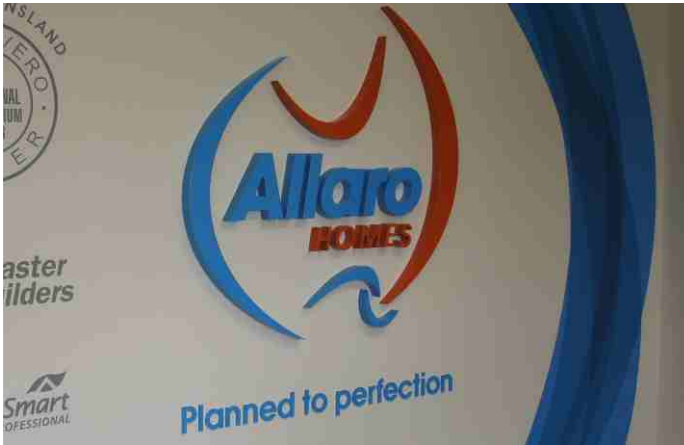

# STAND OUT

---

Utilise the third dimension to create standout 3D signs that separate you from the competition. 3D signs, letters & logos provide a high impact visual appeal that create a standout image on any surface.

Coupled with lighting effects, 3D signage can have further appeal and increase the presence of your business image, making you stand out amongst competitors.

3D signage can be used anywhere from building interiors to shopfronts. In your reception or foyer, 3D signs create a mark of quality and a reflection of the success of your business. Externally, they can be used to create a high impact branded beacon for customers to associate with your business.

Utilising specialised techniques and an excellent finish our expert team can create a lasting appeal that stays with a person long after they have left your business. allsigns print and design can provide 3D signs in a variety of materials with thickness ranging from 3mm to 50mm. Our qualified team will custom design a solution tailored to your requirements. Talk with our team to find out how we can make 3D signage work for you.
