

Truck signage

“ every car you pass by when making a delivery, out buying supplies or driving to a client sees your name. ”

“Let your truck do the talking for you”

“transform & roll out”
optimus prime

“ Semi Trailers are generally 17 metres long! Now that’s a billboard. ”

Trucks come in many shapes and sizes, it's important that your design is tailored to your vehicle type.

At allsigns print and design we take the cabin type into account when wrapping your truck. Truck wrap designs will be different for a single cab, dual cab or tray. Some trucks may also have canopies and different tray types, which offer convenient real estate for your messaging.

With care, a wrap lasts for about five years and with the correct vinyl removal is easy when the time comes.

We'll be with you every step of the way during your engagement with us. From concept to design, fabrication, project management and installation we'll answer all of your questions and ensure you get the most value out of your wrap.

Contact us to see how we can take your business to the next level.
